

12 January 1998

S: 30 January 1998

MEMORANDUM FOR DASA, BUDGET

DASA, FINANCIAL OPERATIONS

DASA, RESOURCE ANALYSIS & BUSINESS PRACTICES

DEPUTY FOR COST ANALYSIS

SUBJECT: Announcement of Army Comptrollership Program (ACP) Class of 1999 for Civilian Employees, Syracuse University (SU), and Follow-On Assignments

Please refer to our announcement of 21 April 1997, on the same subject. This memorandum amends the suspense date for receipt of ACP applications at HQDA from 13 November 1997 to **30 January 1998**.

Selection for ACP will not necessarily include an automatic PCS move. We look at mobility in three dimensions, hierarchical (level of command) and occupational (job series or specialization) as well as geographical (place of duty assignment). Every effort will be made to consider applicants' geographic preferences, including staying in the same geographic area. Selectees should anticipate operational assignments with a change in area of job specialization and/or a change in organization to which assigned. Bottom line—a different job, not necessarily in a different location.

The old, four-times-a-year GMAT schedule is gone. The test is now taken on a computer and can be quickly and easily arranged by calling 1-800-GMAT-NOW (1-800-462-8669). Computerized test centers in most areas are open 10 hours a day, six days a week. The raw quantitative scores are available as soon as the test-taker finishes; the essays take two to three weeks for grading and final score reporting to the schools. New applicants should include raw GMAT score results in their packages.

Commanders, career program managers and supervisors are requested to encourage additional applications for this prestigious long-term training opportunity, in light of this latest clarification in Functional Chief Representative guidance. Point of contact is Tony Polzak, SAFM-PO, DSN 227-2729, (703) 697-2729, e-mail 'polzakl@hqda.army.mil'.
